ARROW fadeless SHIRTS

A NEW shirt may look good, but beauty in a shirt does not necessarily mean service. The Arrow label marks the shirt that combines style and service. It is your guarantee that the garment is made of durable, fadeless fabrics, in such a careful, thorough way that we depend upon its good qualities to sell you another shirt with the same label.

BOW ISLAND

From our own Correspondent

Mr. Myers of Medicine Hat spent the week end visiting Mr. and Mrs. Browning.

Mr. Werts came home visiting his family last week and is staying for a few days.

Mr. H. L. Marsh was a business visitor to Bow Island and Winnifred last Tuesday.

Mr. and Mrs. Babka and their daughter Mrs. Murray from Pleasant View District were visitors to Bow Island last Thursday.

THE COTE HOUSE

Has now opened as a Restaurant, also Room and Board.

We beg to solicit the people's patronage.

Mrs. H. Campion Proprietress

BOW ISLAND ALTA.

We are indeed glad to report that Mr. E.D. O'Neill, our C.P.R. operator has improved so much in health, that he returned to duty last Tuesday, his many friends will greatly rejoice over his recovery.

Mrs. Frank Ley south east of town was a business visitor to Bow Island last Tuesday.

Mrs. Campion of Whitla who spent the winter in B.C. has returned to Bow Island.

The many friends of Mrs. Hurbut are glad to see she has recovered her health sufficiently to be able to get around the house again.

Mr. Hugh Cherry was a business visitor to Taber last Tuesday where he expects to stay a few days.

Rain Delaying Work in Bow Island and Districts

The soaking rains of the last 2 or 3 days have completely stopped Farmers from doing any field work - this looks extremely good for a crop this year, but we heartily wish the rain had come directly after sowing instead of directly.

Those "Calamity Hooties," up in Calgary, will pretend that they are surprised that over 100 rain sunshines have come in the last month.

Now you "Calamity Hooties" send all the Enigmas down to our sunny south and let them see Rain, Glorious Sunshine and Humper Crapse

Oddfellows and Rebekahs Take Notice

Bow Island Lodge No 80 will celebrate the 101st Anniversary of the Order on Monday evening April 26th, at 8 p.m. in the I.O.O.F. Hall.

All Oddfellows and Rebekahs are urgently requested to be present

A.D. Rolfe

N.G.

BIRTH

Born to Mr. and Mrs. S.J. Bell of Maleb at the Medicine Hat Hospital on the 16th April 1920 a fine bouncing boy, who weighs 8 1/4 lb. both mother and child are doing well.

Mr. C.H. Bell was called early last week to see his father, who is very ill in Kalamazoo Hospital, Michigan - the old gentleman is 83 years old. Mr. Bell will also visit his old home in Elie, Michigan.

Our sincerest wishes are extended to Mr. Bell that his father may recover and will yet live for a long time to come; the kindest thoughts and wishes of many of Mr. Bell's friends are travelling daily with him on his worthy journey.

Mr. S.J. Bell of Maleb was a business visitor to Bow Island last Friday.

Mr. Allen Egan north of Town has been out ploughing with three outfitts during the past week.

Mr. and Mrs. Frank Ley living East of town, and who have been spending the winter in Oregon, U.S.A. returned to their farm here last week; he says, travel as much as anyone may, yet old Bow Island takes a lot of beating and looks very good to him still.

Mr. Fred Morris Wood lately a Master in Queen's University, Kingston, Ontario, was the guest of Mr. and Mrs. E.C. Ludike of Loucks Street, where he spent last week end returning to Lethbridge last Monday; he is one of the surveyors for the Lethbridge Northern Irrigation District.

Mr. Emil Carlson has returned home to Bow Island from Medicine Hat Hospital where he went for medical advice after his severe attack of the "flu." he has returned looking a new man owing to the skill of the Doctors and faithful attention of the Nurses there. Mr. Carlson is loud in his praises of both Doctors and Nurses; we believe that Mr. Carlson has determined to keep his feet on the path of true health and happiness, our hearty good wishes go out to him in his earnest efforts, we will be sympathetic observers.

Mr. Carlson also desires to most heartily thank all the Ladies of Bow Island for all their kindliness and attention to him in his recent illness, he said, "words really fail to express how much I was touched by their kindness, and I will never forget it." "One touch of Nature, makes the whole world kin."

Not only does the price of news print jump skyward, but the government talks of charging heavier mailing rates on newspapers. This fares seem to be combining to put all but the really good newspapers of the country out of business.

NEW MECHANICAL COAL SHUTE for BOW ISLAND

The new Coal Shute is making rapid progress towards completion, but the work was delayed owing to the rainy weather of the last few days.

Canada and the United States

In these days of almost universal unrest, words of advice and warning are so frequently uttered and written that there is grave danger of the public ear becoming dulled, and the old cliche repeating itself, and the cry of "wolf, wolf" so often sounded as disregarded when actual danger is imminent.

Nevertheless, in the risk of adding to the alarm given by the writer of this column venturing to speak without equivocation of any kind that danger is threatening Canada, the British Empire, the United States, and through the great imperial-speaking nations, is something to consider.

A deliberate propaganda is being engineered throughout the English-speaking world, but more especially in the United States, to create and develop a feeling of mutual suspicion, of hate, between the people of the United States and the people of the British Empire, and because Canada is British, and the next door neighbor to the United States, no stone is being left unturned to arouse an anti-American sentiment among people in this Dominion.

Trace it to its course, this propaganda in the name of Britain and Canadian sympathies. Make no mistake about it. And the writer would say, as a writer in MacLean's magazine said recently: "Canadians, don't fall for it!"

England was defeated in the Great War, at her colonies were beaten, and with loss of territory in Europe, her shipping in the hands of her former enemies; her world trade destroyed.

Her industrial resources, discounting coal, were also beaten, with an enormous debt, and with discontent and rebellion seething at home. Germany is straining almost with desperation to retrieve what she lost in war. Unless she can do so, she will be compelled to depend on world trade and commerce. Germany's position is hopeless for generations to come.

How else is to even partially regain all that she has lost? She sees but one sure, certain and fairly swift method, and that is to drive a wedge of suspicion and hate between the British Empire and the United States.

For this, and this is the way it is open to Germany to attain energy as a power in the world.

In the United States, the game is being played by Germany by certain means, at least two types, calculated for the German-American and the Irish-American vote.

The game is being played by the Hearst newspapers. It is being played by the Sim Felton Co., the only in the United States to Ireland.

In turn, the anti-British outbreaks fomented by these classes in the United States are used in Canada and England, but especially in Canada, to encourage the latter in their country toward Americans. Full use is made of the disunion on England and Canadian money. Retaliatory action is urged against Hearst and the American interests. A policy of narrow,自私的 policy is being encouraged on both sides of the international boundary, not for the advantage of Canada or the advantage of the United States, but in order to

benefit Germany, the enemy of both.

With a firm friendship cemented between Great Britain and the United States, as, in the final analysis, it must be, if the League of Nations becomes a permanent institution or not, because united they can maintain the peace of the world; divided and suspicious of one another, no League of Nations can be expected.

Our Canada devolves as a primary responsibility. A former member of the Lloyd George Government said to the writer that great as had been Canada's contribution to the war in the war and glorious as was the portion of the Dominion had won for itself among the nations, its recent achievements and glory were small indeed compared with the opportunities of great service which Canada had in Canada, said, was in fact, the hostage for the future peace of the world. Situated as this country is, a loyal and proud British Dominion alongside the great English-speaking regions, it is the duty of Canada to strive to bring about a unity in sentiment between the United States and the British Empire which alone could make permanent world peace.

Canadians had it equally in their power, by unwise and ill-considered action, and the development of an anti-American sentiment to do irreparable injury to a concord between the two countries.

Canadians should be on their guard. They should not be led astray by the political scheming, and the pro-German propaganda, across the border. The welfare of the Union, in fact does not rest with the approval of the sound commonsense of the American people. It is the work of a noisy minority. Canadians can afford to treat it with contempt, but let us hope that we don't renounce in kind. Just laugh at it, and keep on striving to establish a fraternal friendship between the two great branches of the English-speaking family.

France to Purchase Ships From Britain

England is Willing to Negotiate the Sale of Ships

Mr. Bigon, French Undersecretary for the Merchant Marine, announced yesterday that he intended and expected results from his visit to London and his conversation with British ministers respecting ships and coal.

The attitude of the British authorities was one of complete cordiality, and the expressed surprise at the charge that England is retaining more tonnage than she is justly entitled to.

Mr. Bigon pointed out that France cannot expect to receive a present of a fleet, but England is willing to negotiate the sale of ships. She had to consider her own position as a sea power, and, according to Mr. Bigon, France has reason to be grateful to her for her concessions.

HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during his waking hours is never cross but always happy and laughing. The only really sick child that I have ever seen sleep well is the one who does not sleep well, if they are cross or cry a great deal give them Baby's Own Ta Ta and they will sleep well and happy again. The Tots are a must for those babies who sleep poorly, the housewife can't stand the constant, banish constipation, colic and insomnia.

The Tots are guaranteed free from opiates and may be given to the baby-in-the-bottle with no anxiety. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. William Medicine Co., Brockville, Ont.

A Fitting Response

Great Britain Claims Nothing More
In Ireland Than the United States Did in the South

When Mr. Lloyd George was putting forward in this country the language as Jefferson Davis did" and will stand for nothing less," he made a proper response to the Senate's recent meddlesome resolution in favor of the right of self-government. It has been difficult to put Congress on record in support of the schemes of insurrection, secession and independence on the part of other peoples, but for some reason or another such documents called to ourselves are always passionately resisted. — New York World.

Minard's Limiment Relieves Neuralgia
What He Swept

Master.— Haven't you swept the street out yet, John?
Boy.—No sir.
Master.—Then what on earth have you been doing?
Boy.—Sweeping the dust out, sir!

Faint and Dizzy Spells,
Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, dizziness, vertigo, etc., which are all gone—feeling, choking, sensations, etc.

Many men and women become rundown and worn out when otherwise they could be strong and healthy. This is due to the fact that they are not in the first stage of healthiness.

No remedy will do so much to make the heart strong and full of vigor, as to make the heart beat and restore it to a healthy and normal condition.

Mrs. C. A. S. Drake, Parkers, Ont., writes:—"I have used on towards the cure of my son, a boy of 12 years, Nerve Pills and find they do me good. I had those fainting, dizzy spells, and shortness of breath, and would become so choked up at times that I could hardly get my breath up in bed. When walking too fast I would have to stop and try to catch my breath. I have used your pills and know that they have helped me wonderfully as far as I can see."

Price 5c. a box at all dealers or mailed direct to receipt of price by the M. H. Miller Co., Limited, Toronto, Ont.

United States Imports
From Alberta Increase

Value of Cattle Exported Amounted
To Over Three Million Dollars for 1919

According to the report issued by the United States Consul at Calgary, S. C. Ross, there was a large increase in the value of cattle exports from the province of Alberta to the United States for 1919 showing a large increase of approximately \$7,000,000 over the total declared exports for the previous year.

The total declared exports from the province for 1919 was valued at \$17,583,32, as compared with the total exports for 1918, valued at \$10,032,005. Of this total for 1919, \$10,100,000 was shipped to the United States by the Calgary office; \$4,803,24 through the consular agency at Edmonton and \$1,695,62 through the consular agency at Lethbridge.

Cattle headed the list in the Canadian office with a value of \$13,551,31 in 1918. Hides came next with a value of \$677,919, being an increase of 100 per cent over the previous year.

In meat and meat products, there was an increase of 100 per cent. The export of wool shows a marked increase from 12,361 pounds, valued at \$26,536 in 1918, to 243,756 pounds, valued at 142,598 in 1919.

On January 15, 1919, when the embargo on the United States on wheat was lifted, 143,343 bushels, valued at \$330,248 have been exported up to January 1, 1920. Oats show a slight decrease in quantity and value, being valued at \$317,073. Butter shows an increase of over \$100,000, the total value of the export in 1919 being \$139,121.

The principal article exported from Edmonton was raw, frozen and salted meat, valued at \$1,833,996, and worth \$74,199 on Jan. 1918. Ranking next in importance was the export of meat, valued at \$1,176,675. In 1918 the value of meat exported from Edmonton amounted to \$616,695. The value of cattle exported amounted to \$464,327, which in 1918 amounted to \$14,796.

British Columbia to Change Road Rules

Act to Change Rule of the Road Is Introduced in Legislature

Legislation to amend the highway act to the extent of changing the rule of the road in British Columbia has been introduced in the Legislature by the government. At present the practice is to drive by the left. Under the new legislation the greater portion of the province would adopt the new rule in July next, but Vancouver Island and the northern portion of the province would be governed by the British Columbia Electric Railway Company who would give effect to the change on December 1, 1921, to effect the change. The reason for this is that the railway company has the power to make alternative to make in its track and cars, involving, according to its own officials, an expenditure of from \$700,000 to \$1,000,000. This money will eventually come out of the pockets of the passengers on the street car, or else by taxation if the government elects to pay the bill.

The change in the rule of the road is to be effected on the ground that the right hand driving principle is distasteful to the North American tourist. Tourists from the United States and other parts of Canada coming to British Columbia have in the past experienced difficulties because of the left hand drive in this province.

Salmon Ship Sails
For the Far North

Must Take Extra Season's Supply Of Food As Well As Clothes For Workers

San Francisco, California.—The Star of Russia is the first ship of the Alaska Packers to sail from San Francisco for the far north. Each cannery of that company is supplied by one of the famous 18 "star" ships, which are among the last of the old square-rigged vessels once so common in the Pacific. The ship carries a load of food, cans and machinery, as well as clothes for the workers, as most of the canneries of the Alaska Packers are too far away from any dependency to supply themselves with the necessities of their stores, including the busy fish "run." At the cannery the ship becomes a combination of warehouse and store at which the cannery workers and native Indians supply their needs for the season. At the end of the season the season's catch is loaded aboard and the ship again sets sail for the Golden Gate.

DAD! YOUR HAIR IS FALLING FAST

"Danderine" Will Check That Ugly Dandruff and Stop Hair Coming Out.

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at your local drugstore. Pour a few drops on the scalp, rub it in, then pour a little in your hand and rub it into the scalp. After several rubs the dandruff disappears. Stop every time you wash your hair, vigor, strength, thickness, and more color.

Not Exactly A Triumph
Arthur (bitterly).—I suppose you consider it a triumph to make a fool of me?

Joan (sweetly).—Oh, no! A triumph means accomplishing something that is very difficult.

A Constipation Cure
A druggist says: "For nearly 20 years I have recommended the Extract of Roots known as Mother Superior's Curative Syrup, for the cure of constipation, piles and indigestion. It is an old reliable remedy that never fails to give relief. Get the Curative Syrup, three daily. Get the Curative Syrup, druggists."

PARTRIDGE TIRES

Game as Their Name

Municipal District of Bow Island

No. 94.

April 2d. (cont.) adjourned to April 17th, 1920

A regular meeting of the Council held in the Municipal Office at Bow Island Alta.

Present, Reeve Gragg, Deputy Reeve Hyland, and Councillors McGregor, Pool, Chisholm, and Henderson.

No 2 F.J. Henderson That the bill for interest from the Bank of Montreal, be left over for investigation and report. — Carried

No 3 That the Secretary Treasurer be authorized to order 8 (eight) cars of hay from the Government at Medicine Hat, Lethbridge, or Cochrane, to be sold for cash only, and at a price to cover all expense and to be paid for out of Municipal Funds.

Three cars are to be sent to Bow Island. — Carried

No 4 A.W. Chisholm That the Secretary Treasurer send at once to the Department of Municipal Affairs, Edmonton, a certified copy of By-Law No 37, with a note for \$2000.00 (two thousand dollars) and that he point out the absolute necessity for this further advance in order to supply the needs of the district. — Carried

No 5 W. Hyland That Mr. Perry Duffy be appointed Secretary-Treasurer for Municipal District of Bow Island, No 94 duties to begin May 1st, at a salary of \$120.00 a month. — Carried

No 6 W. Hyland That Mr. Perry Duffy be appointed Secretary-Treasurer for Municipal District of Bow Island, No 94 duties to begin May 1st, at a salary of \$120.00 a month. — Carried

No 7 R.L. McGregor That the Members of the Council present agree to three readings of By-Law No 37, being given at this meeting. — Carried

No 8 F.J. Henderson That By-Law No 37 be a By-Law to borrow money for seed grain purposes (loan) to be given a first reading. — Carried

No 9 W. Hyland That By-Law No 37 be given a second reading. — Carried

No 10 G.A. Poole That By-Law No 37, be given a third reading and finally passed. — Carried

No 11 F.J. Henderson That Mr. Poole be paid his bill up to \$400.00 (four hundred dollars) till next meeting. — Carried

No 12 Almond Gragg That this Council now adjourn. — Carried

Land to Plow

I have 400 acres of stubble I want plowed for wheat and oats. Two miles from town: I have seed and can do all the other work. Will give share in crop for plowing or give good security. — J. Palmer.

Grassy Lake. — Alta.

POISONING GOPHERS

Owing to the unusually late Spring, it is noticed that the gophers have now come out and are running freely all over the land. Consequently an unusually favourable opportunity is afforded of poisoning these pests. One gopher destroyed now is equivalent to destroying several at a later date. There are many satisfactory commercial gopher poisons on the market. For any farmer who wishes to prepare his own, the Department of Field Husbandry of the University of Alberta, offers the following formula as being very satisfactory:

1. Add 1 oz. of Strichine Sulphate to 1 pint of boiling water.

2. Stir until dissolved.

3. Add a quart of water.

4. While boiling add 2 lbs. Brown Sugar.

5. Add also a tablespoon of Ammonium Sulfate.

6. Pour over a pack of Wheat, or corn, etc.

7. Let stand for 24 hours and add shortening if not all absorbed.

Crop Rotation

The sequence of crops that gives the greatest monetary return in the maintenance of soil productivity, has not been determined for such relatively new agricultural regions as the farm lands of Western Canada. In most old agricultural countries this information has been obtained from experiments that have been conducted over a long series of years. These experiments will furnish information that will be of increasing value as the years advance, but for the time being can be merely suggestive. Results from the past year from these experiments are not conclusive, but we offer them for what they suggest:

1. (1) Wheat after wheat 38.7 bushels

(2) Wheat after peas 51.20 "

(3) Wheat after corn 57.65 "

(4) Oats after wheat 61.68 "

(5) Oats after peas 102.50 "

(6) Oats after corn 117.64 "

(7) Corn after wheat 127.72 tons per acre

(8) Corn after peas 138.59 "

(9) Corn after corn 153.33 "

(10) Potatoes after wheat 386.60 bus. per acre

(11) Potatoes after peas 397.33 "

(12) Potatoes after corn 402.66 "

The following rotation principles are suggested by these data:

1. The best return no crop should be succeeded by one of the same species or kind.

That for best returns a cereal crop should not follow a cereal crop but rather a horse crop.

3. That corn does relatively better after cereals than cereals after cereals.

That corn following a horse crop does not give as good results as corn following a cereal; heat, rather than moisture, is the controlling factor in the production of corn.

That potatoes do better after a horse crop like corn than after cereals; moisture, rather than heat, is the controlling factor in the production of tubers.

6. All the crops do better after than after wheat or oats.

Review Office, Bow Island

MOISTURE

Bow Island and surrounding Districts have had the wettest Spring in its history since weather records were established in 1902.

The winter snowfall has been more than double the average of the last 18 years, the average being only 34.12 inches—but this winter we have had about 90 inches, and if all the winter's snow had remained on the ground, by now we would have over 7 feet of snow on the level all over these vast prairies, and in addition we have had over 4 inches of rain in this month of April; this is the greatest amount of rain with one exception that has ever fallen in one month since records have been kept from 1902; with one exception being September 1916.

So if the rain will hold off until we get our Wheat, Oats and Barley in, we are assured of a good crop and possibly a bumper crop.

Hurrah for Sunny Southern Alberta! — Ni to Calgary Knockers!

Not So Many Are in Dire Straits

Editor, The Calgary Herald.—

Having read from time to time begging letters from farmers in Southern Alberta, in your paper, asking for help in form of old clothes and shoes and being of the opinion that your paper has been given undue prominence to these whining letters, we bona-fide farmers of this local of Nemiskim U.F.A., feel that this side of the situation is being brought so much before the people by a small proportion of the inhabitants of our part of the country who are either improvident or impractical, is an altogether false or one-sided view of the condition of affairs and it is with a feeling of resentment that we see all farmers in all parts of the south being graded as peepers living in a desert. Most of the practical farmers here are supplying their own seed and feed for the coming season, that have been grown in this district. We have threshed from three to as high as 10 bushels per acre of wheat & oats in this vicinity last season. Our progressive farmers still run their cars and live as well as ever in their lives, and whilst we express all sympathy with farmers who have had sickness in their families, we would call your attention to the fact that to all deserving cases of this kind, either Municipal or Government relief is being furnished in this locality.

United Farmers of Alberta NOTE.—So far as The Calgary Herald is concerned its activity in connection with drought relief work was at the solicitation of the head of the United Farmers of Alberta, which organization received all funds and made all disbursements.—Ed.

Joe Bitzel from Pleasant View District was a business visitor to Calgary last week.

Mr. K. Coolidge and family of Pleasant View have moved to Bassano, Alta., taking a car of effects with them from Winnifred last Saturday.

Grassy Lake

From our own Correspondent

An Entertainment was given in the Perry Hall by the Jazz Babies from Winnipeg last Saturday and after the performance the usual dance was held; they are coming back on the 26th, to give another dance.

The Grassy Lake Lodge A.F. & A.M. had a visit from Brother Elliott, District Deputy Grand Master on Thursday 8th. A good attendance of the members were present.

Mr. J.H. Watson left on Monday the 12th inst. on a trip to Scotland to visit his mother.

The Amateur Dramatic Club of Sherburne District gave an entertainment in the Perry Hall last Friday there was large attendance and everything went off successfully.

The farmers are busy taking out seed grain and hay and all expect to be busy on the land in a few days, although quite a few of the farmers were seen on the land very busy ploughing last Friday.

BURDETT BOY SCOUTS

From our own Correspondent

Friday last was a red letter day for the Boy Scouts of Burdett when they were organised into a Troop independent of any other town. The new Troop got away to a magnificent start and hope with the interest displayed by all classes of people to soon have as fine and useful an organisation as any in this part of the Province.

Mr. H.B. Davidson the Commissioner for Southern Alberta came down from Medicine Hat. In the afternoon he met many of the Business Men of the Town and found them very keen on the work; he also met the boys who are at present enrolled and their parents, when he came to the conclusion that excellent material existed for the movement to make a good showing here.

Early in the evening he met the Committee of the Board of Trade who had the preliminary arrangements in hand and thoroughly discussed the formation of a Scout body.

Later he attended a large gathering of the boys and their parents which was held in the Local Theatre under Chairmanship of the Rev. Mr. Cook, who opened the proceedings with an interesting address. Mr. Davidson then took the floor and after about 40 minutes held the audience with a graphic outline of the organisation and all it stands for.

At the conclusion it was unanimous, & decided to form a branch and the following officials were elected: President W.D. Anderson, Vice President W.S. Sears, Secretary C.C. Fielding, Treasurer C.T. McKinnon, Committee, K. Brown, Roy Campbell, A.H. Rygg, J.H. Sandy,

At the conclusion of the meeting the crowd which had been augmented by a large number of visitors from the neighbouring Towns and Districts started to dance. A most enjoyable time was spent by all early in the morning an excellent supper was served by the ladies of Burdett who cannot be thanked to much for their services: among those were Mrs. Sam Fletcher, Mrs. Pool, Mrs. Brown, Mrs. Edmunds, Mrs. F. Kirk, Mrs. Campbell Sun and Mrs. Campbell Jr. and Mrs. Robertson.

The well known Warby Orchestra volunteered their services and it was in a large measure owing to their advertising as so doing that the large crowd resulted. Helped by volunteers for a few numbers this musical band gave the greatest satisfaction.

The Theatre was placed at the disposal of the management by the proprietor Mr. J.H. Sandy free of cost as was the building in which supper was served.

We are informed that a profit of about \$75.00 was made on the evening and this sum with that of hand will enable the Committee of management to outfit the boys at once.

We think that the hearts thank us extended to Mr. J.H. Sandy for his generosity in loaning his two different buildings last Friday to the Boy Scouts, now boys give their hearty cheers for Mr. J.H. Sandy.

IN THE ESTATE OF JANE WADDELL OF BOW ISLAND, ALBERTA. DECEASED

NOTICE is hereby given to persons having claims against the estate of Jane Wadell, deceased, who died on the 15th day of May, 1917, at Bow Island, Alberta, are required to file with the undersigned by the 31st day of June, A.D. 1920, a full statement of the value of their claim, specifying regard only to the value of any securities held by them and that after that date the administrator will distribute the assets of the deceased among the claimants in the manner directed, having regard only to the value of which notice has been given so held or which has been brought to his knowledge.

DATED at Lethbridge this 18th day of April A.D. 1920

DAVID HORTON ELTON
Solicitor for the Administrators
Lethbridge, Alberta.

Winnifred

From our own Correspondent

Mr. Smith at the Globe Store is reported not feeling at all well and was advised to consult his medical adviser.

It is too bad that there is not some ambitious person who could not start up a white Vernon at Winnifred as that town is very badly in need of one.

Mr. Herben Held of Medicine Hat returned to the home of Oscar Danielson and will be employed there during the summer season.

The Ladies Aid are holding rehearsals regularly and expect to be ready before many days to perform a drama, all players are home talent and are doing excellent work. Mrs. C. Freeman plays leading lady, Mr. Long, and Mr. Hume LaMarsh are some of the stars.

Mr. Fred Petty returned from Medicine Hat this week.

Miss Verna Castle returned to St. Theresa Academy after her Easter vacation with her parents.

The Stock called at the home of Mr. and Mrs. Fred Brown March 29th, and left them a fine baby girl.

Mrs. Jas. Larsen and sister Ethel were Bow Island visitors this week.

Mr. Frank Hills is suffering from symptoms of blood poisoning in his hands due to being over heated while working during the rush in handling out seed grain at the Lake of Woods Elevator.

Miss Belle Stevens teacher of the Maxwell school is now located at the home of Mr. Wm. Craig, Miss Priscilla Craig of Out, is here expecting to make her home with her brother.

Miss Myrtle returned to school at Medicine Hat after spending her Easter vacation at home.

Geo. Fredericksen of Lethbridge is now settled on his farm south of Winnifred.

Mr. and Mrs. Holden returned from Lethbridge and are back on their farm full of courage ready to put in another crop. Winnifred boys were sure to see Mr. Holden return he is the leader of bases and no manly ball for him in a game.

Claire Harris returned from Lethbridge this week where he worked all winter.

The Norwegian Ladies Aid will meet with Mrs. John Krokan April 26th.

Mr. Alex Smith and son Earl returned to Winnifred this week expected to spend the summer.

Mr. and Mrs. Jack Shielock returned from White Fish, Montana and will make Mrs. Ed. Baker's place this year east of Winnifred.

Will make all your own Hosiery, and there is a Demand for all you can make, you can earn big Money at home, Reasonable price.

INCREASE IN FREIGHT RATES IS SURE

Charles Murphy, general manager of western lines of the C.P.R. who was in Calgary Monday morning, indicated that undoubtedly there would shortly be another load in freight rates to meet the increased scale of wages that was now in operation and the ever mounting prices of all classes of material.

Mr. Reardon 8 miles south east of Winnifred was a business visitor last Tuesday.

THE REVIEW, BOW ISLAND, ALBERTA

BAR U AND NAMAKA FARM PERCHERONS

The largest herd of the pure-bred Percherons in the World. The Bar U Percheron studs are the result of a long series of experiments in which British horsemen have selected Percheron breeding stock to establish a strain.

Do not let the British breeders come to Canada and carry off all our best foundation stock. Do not allow with your sheep and cattle brought in from the United States and Canada produce from the good States, when you buy the best qualities of the best breeds, to be taken by men that have no right to do so. We have had 23 years, and expect to remain here for many more. We have seventy-four head of pure-bred Percheron stallions in our one breeding now and have a large number of mares. We have a large number of foals. We will give you one from the lot to sell you we will give you every assistance in our power. Write for full particulars. Many thanks and we will send you and show you the stock at any time.—Address:

GEORGE LANE (Dept. B.), CALGARY, ALBERTA

FARMERS BREED PERCHERONS

The only breed of draft horses were shipped back to England from Canada for breeding purposes were Percherons. The greatest breed of draft horses in North America are Percherons. The most important breed today is the Percheron. A profit to own—A pleasure to handle.

You will make no mistake in your horse breeding this year if you use a Percheron.

WRITE FOR INFORMATION AND LITERATURE

Let us put you in touch with the best Canadian Percheron Breeds.

Mention this paper when writing.

Why Eve Liked Apples

"Alas!" sighed young Callow, "if only Eve hadn't been so fond of apples."

"My dear boy," said Cyclops, "you won't be very fond of apples, but that was the only forbidden fruit."

Instead of sending a friend on a fool's errand, go yourself.

Keeps Baby's Skin Healthy

If every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would take chances on being well without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of blemishes and makes the skin soft, smooth and velvety.

Steer Warships by Wireless

During Experiments Destroyed Was
Maneuvered With Not A Single Man Aboard

The British Admiralty reports considerable progress in recent tests of apparatus which will enable vessels and torpedoes. Warships with the assistance of only a few men are regarded as an early possibility as a result of experiments. The Daily Mail says: "By using hertzian waves the wireless warships of our fleet have been maneuvered with the precision of a man at the helm. The wireless signals from a distance of some miles. During the experiments a destroyer was maneuvered by wireless with not a single man aboard. By touching the wheel, a vessel is easily steered by the invisible force. Ship's searchlights were also turned by wireless."

SAFE AND EFFICIENT HOME TREATMENT

Got Him to Advertise

Persistency Had Its Reward After Many Days

An advertising salesman connected with the Syphon Company, called on me recently of his difficulties in persuading a small town in his community to advertise, and he furnished me with a concrete illustration of how persistent he has to be to succeed—concrete from a personal experience.

He told me that he had called on one man twice a week for several years. Of course, he got very well acquainted with this man. He had been a good customer for a year or half a year, continually making a living and that's all, while he might have made a fortune had he commenced his career by employing advertising in his home-town newspaper.

This advertising salesman called on this merchant on his forty-fourth birthday and congratulated him, remarking on his splendid physical condition and telling him that instead of calling him forty-four, he didn't look a day over sixty-five.

This pleased the old gentleman so much that he said to the advertising salesman, "Well, you have certainly got me interested in getting to work for a greater market, and I will do my best to help you." Whereupon he told him to insert a small ad.

The result of this little story is: Keep at a business man and persuade him to advertise even if he lives to be eighty-four before he starts.

It is never too late to get started on the right track—W. C. Freeman, in Fourth Estate.

Czechos to Cross Canada

The Canadian Government was asked some days ago by the war office if 50,000 Czechoslovak troops returning from Siberia to their own newly formed republic could be transported across Canada. These troops, after a difficult journey, joined the anti-Bolshevik forces in Siberia and fought there for nearly a year. They are now to return home, and as they cannot cross Russia in doing so, it is proposed that they should be transported across the Pacific to Canada; should travel through Canada to the Atlantic, and so journey to their own country in Europe.

His Party

The Countess of Warwick, who has been adopted as Labor candidate for East Walthamstow, has long been noted for her practical interest in fair work.

Her best stories concern an occasion when she canvassed the humble quarters of a northern town on behalf of a well-known Labor leader, and encountered at the door the stern and determined character. "May I see Mr. —?" she asked. "No, you can't!" answered the matron decisively. "But I want to know what party he belongs to," said the Labor leader. "Well, take a good look at me," she said. "I'm the party he belongs to!"

Lethbridge's Export Trade

Exports to the United States in 1919 amounted to \$1,000,000. Lethbridge has formed the largest portion of these exports, 17,159 head having been shipped to southern points. These were valued at \$854,312.80. Horses for exhibition, cattle, horses, sheep, potatoes, pemmican, wool, and wool, comprised the remainder of the exports. The total value of the wool exported from Lethbridge in 1919 was \$15,544.95.

Horse Shortage Is Acute

What Are The Prospects of the Draft Horse Business

The pamphlet of the Nor'west Farmer just published, contains some interesting information for farmers.

Horses from this continent are going to Great Britain. Buyers from France, Belgium and even Japan are over here now looking over the situation. In Germany the horses are forced to work and unusual things may have to do their work. Nearly every European country is short of horses.

It is reported that as soon as the exchange rate becomes more nearly normal, the horses from these countries will be placed to place orders here.

Here is an extract of the Weekly Bulletin of the Department of Trade and Commerce, March 15th, 1920.—"Investigations have been made into the present market for horses in this district. The position seems to be that as far as light horses and field horses are concerned, there is a demand for Canadian horses. Many horses, however, which were imported from Canada for war purposes, were imported by the government in this country with the result that the heavy horses with clean limbs have become very popular, as it is found that, as compared with the animals with heavily-laden hoofs, which catch mud, mud and grass, are quite as suitable for many branches of work. There are therefore good possibilities for the importing of heavy clean-limbed horses, such as Percherons from Canada.

The prices at present are very high and range on the average from £125 to £250 per head.

In Canada is in a position to ship these horses to this country they would likely find a good demand, provided of course that the shipments were made gradually so as not to flood the market.

On leaving from a Canadian shipper this office will be glad to put him in touch with a horse dealer who has been in the trade for many years and has a wide knowledge of the market in the United Kingdom. He would be prepared to handle the horses, and probably, if necessary, be willing to go or send some one to Canada to select horses most suitable for that market.

On this continent, what do we see?

In the few states of the American Union where breeding programs have not been breeding, in fact, many of them have not produced a colt for two or three years. They were making more money raising grain and producing meat for the allied countries.

In the United States today there are fewer young horses in proportion to the total than at any time in the history of the country.

There is reason to believe that there will be a great increase in the number of young horses suitable for use in 1921, 22, 23 and 24, with a certainty of much higher prices.

The 21 million horses now on farms have less than five million of distinct types well calculated to do their particular job in life. This makes it easier for the tractor people to sell their machines; a good one-half of the stables contain horses suitable for use in 1921, 22, 23 and 24, with a certainty of much higher prices.

This makes it easier for the tractor people to sell their machines; a good one-half of the stables contain horses suitable for use in 1921, 22, 23 and 24, with a certainty of much higher prices.

On the part of the Canadian government, the Minister of Agriculture, Dr. Williams Pink has

asked him to do this one thing and they do it well.

These arising from bad or deficient blood, as rheumatism, neuralgia; after a fall, etc., resulting from a fall, etc.,

or arising from any harmful drug and causing lameness, etc., are to be freed from opium or any harmful drug and can be used again.

You can get these pills through any dealer in medicine, or by mail at \$6.00 per box. Order on Minard's Liniment Co., Brockville, Ont.

Squirrels As Big Cats

There is no country that can rival North America for the great number of squirrels, both species and subspecies, and the most famous and the most brilliant of color and size are concerned, however, says the American Forestry Magazine of Washington, the handsomest and largest of squirrels in the world are found in the coast of Malabar is found a squirrel as big as an ordinary cat; this animal is bright red on the upper part of the body, offset by the most intense black, while all the lower parts are of a clear yellow.

A millet is cooler in summer and warmer in winter than a frozen snowball.

**Freight Rates Increase On
North Atlantic Looks Like
Deliberate Holdup**

London, April. The elimination of Germany as a North Atlantic carrier and the increase in the cost of operating are offered as possible explanations of the 50 per cent. increase in freight rates. The shipping men point out that competition is now entirely removed from the North Atlantic, the conferences having even included in its combine a small line as the Swedish-American.

Stanley Martin, president of the London Chamber of Commerce, in discussing the matter, declared: "I do not care to condemn the shipping companies unaided, but I shall await their explanation with great interest. It certainly seems inexplicable in view of the fall in the price of bunker

coal, and the increase in rates is bound to have its effect on the price of food."

The Express says: "What does the British Government propose to do with regard to this monstrous action on the part of the Cunard, White Star and other North Atlantic shipping companies raising their freight rates by 50 per cent? If they are not going to do anything, they will break the hearts of all their strongest adherents and supporters."

**Our new Spring Goods have arrived, comprising Ginghams
Suitings, Voils, Organdies, Shepards Check, Silk Poplin,
Duchess Silk etc.**

There is a constant rush of business
At the Mercantile Company's Store
When People make one purchase here
They come again for more.
The service is an attraction
But the price it tells the tale
If you're out to save the nickels,
Line up with the crowd, don't fail.
A piker herds by his lonesome,
While the crowd sails on serene.
Lean years and other drawbacks
Cause each to think with his bean.

Your interest is our interest,
Now and all the time.
You desire to stretch each dollar
By the saving of every dime.
Likewise we snap up bargains
And pass them on to you.
We know our business thoroughly,
And aim to serve you true.
May the coming crop be greater
Than this country ever had.
May each purse overflow with money,
And every heart become real glad.

Take advantage of the low prices prevailing at BURDETT'S BUSY STORE,
and buy your Spring's Supply.

Burdett News

From our own Correspondent

If you need a Farm Loan and need it quick, with good Reliable Companies see George Lomas of Burdett who has had years of experience. No Delay.

Mrs. Heyant from Leigh U.S.A. who has been here visiting her daughter Mrs. Laymen, expecting to return this week taking Mrs. Laymen with her.

Ward Clark was taken to the Medicine Hat Hospital to undergo an operation the cause being an abscess in his side.

Miss A. Donaldson is undergoing a slight operation at the Galt Hospital.

George McAnary returned from the States where he had been spending the winter.

Most of the farmers around Burdett are saying that they will start seedling on the 1st. of the week if the weather permits.

The Rev. Gilbert took the Services last Sunday at Burdett, and the Rev. Cook from Burdett took the Services at Bow Island last Sunday both Services being greatly appreciated.

Bill Perry started for home with his new tractor last Tuesday and at the time of going to press, we learn he was going through one of the main streets of Pittsburgh; we know that Bill will make a success in his new undertaking owing to his mechanical abilities.

Frank Bertram returned from the Military Hospital at Lethbridge last Thursday.

Sam Fletcher last week had in a carload of oats, and on going from Car to Mill fell off the dray fortunately without injury to himself the Farmers are now kicking because he charges \$70.00 a ton.

Mr. Farmer

Why monkey with Loan Companies who keep you waiting months, go to Fielding, Burdett, for quick service.

We are glad to report that George Lomas our son for sighted and keen purveyor of Delicious Meats, had some "very tender" and "choice parcels" of Meat sent by Express to him from Medicine Hat.

That is the way to do trade George, keep up your reputation.

We hear that George thinks of running a Peanut Farm.

G. W. V. A.

A general meeting of ex-soldiers who have seen service in either the Canadian Army or active service in the Imperial Army was held in the Council Room on Thursday April 16th.

A Branch of the G.W.V.A. was formed some time since for the towns of Bow Island and Burdett but this has not proved a success from the point of view of the Burdett lads.

The meeting decided to form a local branch for Burdett and the surrounding district and over twenty names were handed in from those who wish to be members. Some of the most prominent members of other local and arrangements were made for their transfer.

The election of Officers and Committee was the first business when the following were elected for the ensuing year. President C.C. Fielding, Vice President B. Stewart. See, Tres. G. Kirkham, Committee F. Bellman, D. Colman and A. Brown.

Many matters of interest only to the members were then dealt with among others the Secy. Tres. was directed to apply for a charter and the necessary badges and stationery for the proper carrying on of the local.

It was decided to have a monthly meeting and as many of the members reside at a distance from town the first Sunday in each month was selected.

The local got away to a good start and will no doubt prove a great benefit to the returned men.
